EDUCATION

Dharmsinh Desai University

Bachelor of Technology in Information & Technology CPI:7.62

Nadiad, India

Nov. 2022 – May 2026

PROJECTS

ContentAura | React.js, Tailwind CSS, Spring Boot, PostgreSQL

Dec 2024 – May 2025

- Built a scalable content management system enabling dynamic schema creation and content organization.
- Integrated Spring Boot analytics, tracking projects, schemas, content and API fetches.
- Designed a REST API backend with Spring Boot for efficient data storage and retrieval.
- Used PostgreSQL JSONB to support flexible content structures across multiple projects.

RentifyDrive | Next.js, Tailwind CSS, Node.js, MongoDB

April 2025 – Present

- Developed a full-stack car rental platform where admins can list rental cars, and users can book cars based on availability.
- Added license verification step to ensure only verified users can proceed to booking.
- Implemented role-based access control (RBAC): only admins can add/update/delete cars, while users can search and book.
- Integrated daily rental pricing and booking system, with total cost calculated based on selected duration.

mAIndmap | Next.js, Tailwind CSS, OpenAI API

Feb 2025

- Developed an AI-powered mind-mapping tool to help users organize and visualize ideas dynamically.
- Used OpenAI API to suggest ideas dynamically based on user input

ProjectHunt | React.js, Tailwind CSS, Spring Boot, PostgreSQL

Dec 2024 – March 2025

- Created a project-sharing platform with user authentication and upvote toggling
- Implemented JWT (JSON Web Token) -based authentication
- Built a RESTful API to handle project CRUD operations efficiently.

TECHNICAL SKILLS

Languages: Java, C/C++, TypeScript, JavaScript, SQL (Postgres), HTML/CSS

Frameworks: React, Node.js, Spring Boot

Libraries: Express

Databases: PostgreSQL, MongoDB

Developer Tools: Git, GitHub, VS Code, IntelliJ

CS Concepts: OS, DBMS, OOPS

ACHIEVEMENTS

- Secured a Top 15 position among 300+ teams for **mAIndmap** at **DUHacks 4.0**, a nationwide hackathon by GDSC DDU.

Experience

Freelancer – Full stack developer

- Built the Kapileshwar Mahadev website and a Question Bank website using Next.JS, Prisma/PostgreSQL, Tailwind CSS.
- Managed full-stack development independently, delivering responsive UIs, optimized backend APIs, and scalable database structures.
